MULTICOLOURED SLIM165 FIBREGLASS LED LIGHT

The BriteStream Multicoloured Slim165 Fibreglass LED light has been specifically designed for easy installation into fibreglass pools – not to mention an energy efficient lighting solution.

BriteStream Multicoloured LED light can produce myriad colours without the need for coloured lenses. In fact, there are nine different colour programs available.

- Energy saving – operates on 15% of the energy of a halogen
- New BriteLUX diffuser lens
- Long life LEDs

## BriteLux Diffuser Lens

Unlike traditional LED lights that restrict the light output to individual hot spots, BriteLUX Diffuser Lens radiates light throughout the entire circumference of the lens.

In fact, the BriteLUX Diffuser Lens significantly boosts colour saturation and increases light transmission by 50 percent.
